

Art. 631 POLYPLAN Architecture Type V PFL

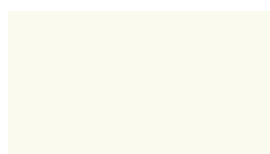

This product has been especially developed for long-term outdoor-applications. A base fabric made of high-tenacity, anti-wicking polyester yarns fulfils the mechanical parameters and is enclosed by a highly UV-resistant, flame-retardant and fungicide treated soft-PVC coating. The PFL-surface sealing with the approved weldable PVDF-lacquer ensures long-term protection against environmental impacts, dirt-repellence and durability.

Weight:	45.7 oz/sqyd
dimensions:	upon request
Type I-V:	Type V
Application:	Tensile structures
Surface:	high gloss, lacquered, PVDF
Properties:	Anti-Wicking, flame-retardant, fungicide finish

base-fabric made of high-tenacity polyester yarns --> strong mechanic properties anti-wicking-yarns in warp & weft --> protection against microbial attacks and staining UV-resistant PVC-Coating --> long durability PFL-surface sealing with PVDF --> durable, dirt-repellent, weldable
