Art. 621 POLYPLAN Tent Floor FR

Polyplan Tent Floor FR is used as a tent floor. Contrary to smooth membrane surfaces, which can be very slippery, this product features a very structured surface that prevents slipping. Since both sides are coated, the fabric can be easily processed. The flame-retardant formulation allows a broad range of uses, from field-hospitals, over disaster relief shelters to tents for events.

Weight:	21.5 oz/sqyd
dimensions:	upon request
Application:	Halls & Tents
Surface:	antislip, special
Properties:	flame-retardant, fungicide finish
