

Art. 641 004 COMPLAN View

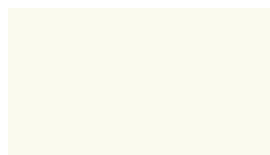

Highly translucent membranes are used to divide inner spaces without darken them. A sturdy base fabric provides the necessary mechanical strengths and stability, while a transparent, weather-resistant PVC-coating allows a sufficient amount of light to pass through the fabric.

Weight:	670 g/m ²
Width:	250 cm
length:	65 m
Max. tensile strength:	3000/3000 N/5cm
Tear strength:	300/300 N
Application:	Industry, Roll doors, Truck tarpaulins
Surface:	high gloss, lacquered, special

- Translucent coating -> for maximum light transmission and light usage
- High-performance polyester base fabric -> strong and stable membrane
- High-quality PVC-coating -> for best weather-resistance and durability
