

Art. 641 004 COMPLAN View

Highly translucent membranes are used to divide inner spaces without darken them. A sturdy base fabric provides the necessary mechanical strengths and stability, while a transparent, weather-resistant PVC-coating allows a sufficient amount of light to pass through the fabric.

 Weight:
 670 g/m²

 Width:
 250 cm

 length:
 65 m

Max. tensile strength: 3000/3000 N/5cm
Tear strength: 300/300 N

Application: Industry, Roll doors, Truck

tarpaulins

Surface: high gloss, lacquered, special

• Translucent coating -> for maximum light transmission and light usage • Highperformance polyester base fabric -> strong and stable membrane • High-quality PVCcoating -> for best weather-resistance and durability
